K-D TOOLS ®

SPRING 1959

CATALOG SUPPLEMENT NO. 27B

K-D MFG. CO., LANCASTER, PA.

NEW

K-D SNAP RING PLIERS
with
INTERCHANGEABLE POINTS

One pliers for internal type snap rings; another for external types. Using different types and sizes of interchangeable points the mechanic has a wide range of applications.

K-D POINTS CANNOT TWIST

Hexagonal points are automatically aligned and secured in the hex jaws of the pliers: round head screw on each tempered jaw plate locks points in place; they cannot twist. K-D points are of highest quality, accurately forged, correctly tempered. Only fine, tough tool steel—no inferior materials—is used in their manufacture. 12 interchangeable types and sizes now available.

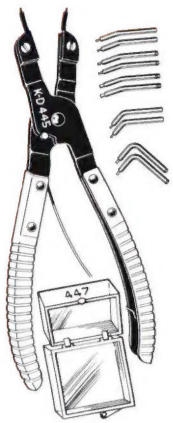
Pliers each 6¾″ long with firm-grip handles, rustproof finish.

K-D 444 Set. Best value! Set consists of No. 445T Internal Snap Ring Pliers, No. 446T External Snap Ring Pliers, No. 448* Point Assortment (9 pairs INTERCHANGEABLE points in a plastic box).

PACKING

No. 444 Set . . . in individual carton.
No. 444-C . . . carded for wire rack display.

Low priced!



K-D 445 Internal Snap Ring Pliers with No. 447* Point Assortment (5 pairs of INTERCHANGEABLE points in plastic box).

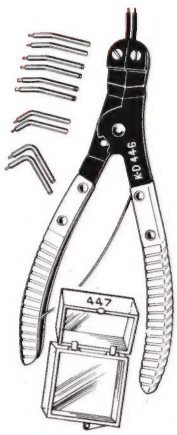
PACKING

No. 445 . . . in carton.
No. 445-SP . . . tool and points on skin-pack display card.

K-D 446 External Snap Ring Pliers with No. 447* Point Assortment (5 pairs of INTERCHANGEABLE points in plastic box).

PACKING

No. 446 . . . in carton.
No. 446-SP . . . tool and points on skin-pack display card.



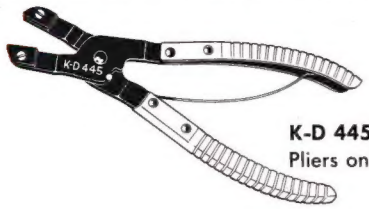
* See "POINTS" listing for sizes and types.

K-D TOOLS

LANCASTER, PENNSYLVANIA, U. S. A.

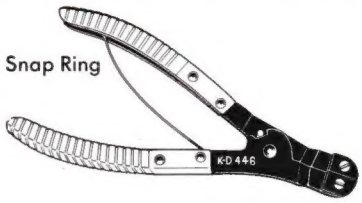
NEW

SNAP RING PLIERS ONLY, NO POINTS



K-D 445T. Internal Snap Ring Pliers only. Boxed.

K-D 446T. External Snap Ring Pliers only. Boxed.



INTERCHANGEABLE POINTS

Finest quality tool steel, can be used in either K-D snap ring tool. Hex shape automatically aligned, locked in hex jaws of K-D Pliers. Point ends are ground with reverse taper for better grip in ring holes.

Order by COMPLETE type Number as listed below.
